

NATIONAL FREQUENCY COORDINATORS COUNCIL, INC (NFCC) ANNOUNCES REFORMATION

Washington, D.C. – December 18, 2007 - The National Frequency Coordinators Council, Inc. (NFCC) today announced that it has been incorporated in the District of Columbia, elected Directors and Officers, launched its new website, and is now fully functional.

The original National Frequency Coordinators' Council, Inc. was dissolved in 2002 when the District of Columbia revoked its corporation status. Now, after nearly 6 years, a dedicated group of qualified, forward thinkers has agreed to pick up the torch where the original NFCC left off and serve the United States frequency coordination community for the betterment of the Amateur Radio Service.

Steve Agee N5ZUA of Houston, Texas has been elected to the President's chair. Steve and his team at the NFCC are committed to working with the American Radio Relay League, Federal Communications Commission and all of the local, regional and state frequency coordinators to build a stronger alliance.

In an effort to promote balance and fairness, the NFCC has adopted a strict Code of Ethics. This Code of Ethics sets forth basic guidelines concerning conflicts of interest, non-discrimination and integrity.

For further information, visit the new NFCC website at: www.theNFCC.org

The National Frequency Coordinators Council, Inc. would like to wish you and your family a happy, safe holiday season and a prosperous new year!
