

DHF Systems, LLC
Midland, MI

Summary for ARRL

DHF Systems, LLC (DHF) in Midland, MI has been incorporated for 18 years (since 1996) as a Michigan based corporation. The company's main focus since its inception is the development of innovative software for amateur radio generally and the ARRL specifically. The principals of DHF are Al Ambrose (N8DHF) (Extra) and Linda Ambrose (KB8QWO) (Technician). DHF currently contracts with three developers for development and ongoing support. Currently commercial and products in development for ARRL include:

Product	Year Introduced (or Planned)	Description
TravelPlus for Repeaters™	1997	A highly featured CD-ROM based product to locate US and Canada repeaters along a travel route, complete access repeater and other databases and export functionality to make available for 3 rd party radio programming applications.
TravelPlus Mobile GPS™	2010	Downloadable from ARRL (and with a Garmin interface) this application features location of open ham radio repeaters in the US and Canada for display on Garmin nüvi® GPS products.
ARRL Repeater Directory App ...Powered by TravelPlus™	2013	Downloadable from Google Play this application provides access to The ARRL Repeater Directory® database from Android phones and tablets. Featured with <i>The ARRL Repeater Directory®</i> .
ARRL Repeater Directory App ...Powered by TravelPlus™	(early 2015)	Downloadable from Apple iPhone® App Store this application provides functionality similar to its Android counterpart but is designed for Apple iOS phones and tablets.
ARRL Exam Review for Ham Radio™	2014	A browser-based online application for computer, tablet or other mobile device to review questions and take practice exams. Featured on the ARRL web site with the <i>ARRL manuals for Tech, General and Extra Class</i> .

For all applications DHF provides 2nd and 3rd tier technical support to the ARRL (and members). Since 1997 ARRL has invited DHF to participate within the ARRL booth at the Dayton Hamvention® to showcase and sell these ARRL products. In addition since 2007 DHF has provided to ARRL the CD-ROM/DVD authoring for a number of publications including the *ARRL Periodicals*, *ARRL Handbook*, and the *ARRL Antenna Book*.
