DANIEL STEVENS, KL7WM

As we look back at the last 100 years of amateur radio, I plan to lead the ARRL into the future with New visions, policies and exciting New programs. I will help energize people with New vision for traditional and exciting New modes in the amateur radio. A healthy amateur environment is good for our society and will guarantee a better world for tomorrow.

The growth of amateurs has not kept up with the population growth. That is why we need new leadership. I will work to expand the amateur hobby to surpass the population growth percentage. Please endorsement KL7WM as Vice Director.

It is not about my certificates or QSL cards in a drawer, but about benefits for the all amateur operators like you and increasing your fun.

I am an amateur extra. I have been licensed 30 years and became an ARRL Life Member soon after I was licensed. I come from a family of seven amateurs. I teach all levels of amateur licensing and emergency communication courses. I believe the amateur radio is a fun family hobby.

I bring team leadership experience to amateur radio. My experience on the boards of 5 ham organizations and 15 years of leadership service has helped many excel. My management degree enhances my small business. My favorite phrase is, "What can I do for you?" I am a service and benefit minded person. Please share your ideas with me.

I have energy that is exciting and contagious about amateur radio. My VEC team unified Alaska. The SHB-2335 team saved many area wide repeaters across Washington from high taxes. This is more than Western Washington. It is about fun and benefits for Idaho, Montana, Eastern Washington, Alaska and Oregon, too. I am the FUN Candidate. Vote for Daniel Stevens, KL7WM.
