## What makes The CAT a Super Ship?

- ▼ The INCAT 98 Wave-Piercing Catamaran Car Passenger Ferry, aka The CAT, is manufactured in Australia by INCAT. It is 320 feet/98 meters long and can carry up to 775 passengers and 250 vehicles, including 14 tour buses or motor homes.
- ▼ Powered by four 9,500-horsepower marine diesel engines, The CAT can travel at speeds up to 55 mph
- ▼ The CAT's four water jets could fill an Olympic swimming pool in 33 seconds!
- ▼ The aluminum required to build The CAT could produce 32 million beverage cans!
- ▼ The high-speed ferry of choice for ferry services all over the world, The CAT has revolutionary aluminum hull construction, an active trim tab and a T-foil ride control system that enhances passenger comfort.

  
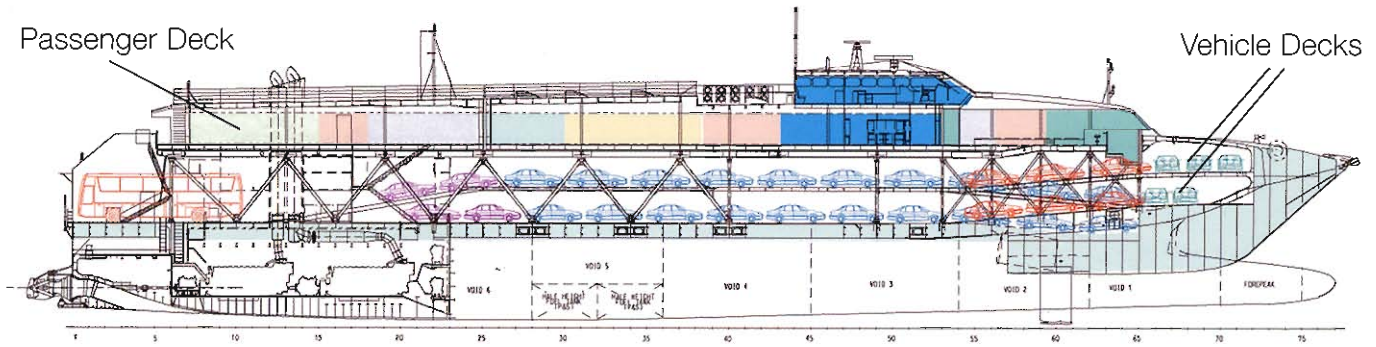

**THE CAT**
